

eXpressWare Host Adapters

Gen3 Host Adapters

PCI Express NTB Host Adapters are high performance cabled interface to external processor sub-systems. Based on standard PCI Express bridging architectures, the host adapters include advanced features for non-transparent bridging (NTB) and clock isolation. These host adapters combine high performance with an application-to-application latency starting at sub-1 microsecond. They support both Remote Direct Memory Access (RDMA) and Programmed IO (PIO) transfers, effectively supporting both large and small data packets. RDMA transfers result in efficient larger packet transfers and processor off-load. PIO transfers optimize small packet transfers at the lowest latency. The combination of RDMA and PIO creates a highly potent data transfer system.

Our host adapters are carefully designed for maximum cable length. They support copper cables at various lengths at full PCI Express speeds. Fiber optics are available on some models to extend cable distances up to 100 meters.

Our eXpressWare™ software suite is included with all eXpressWare NTB host adaptercards.

PXH830

PCIe Gen3 x16 NTB Host Adapter

- One x16 PCIe edge port
- Four x4 PCIe cable ports
- PCIe 3.0 or MiniSAS-HD cables
- Low Profile Design
- Quad SFF-8644 Connectors
- Full Dolphin Software Stack
- 128 Gigabit/s performance

PXH840

PCIe Gen3 x16 NTB Host Adapter

- One x16 PCIe edge port
- Configurable up to 4 fiber optic ports
- Low Profile Design
- 128 Gigabit/s performance
- PIO and DMA RDMA
- Full Dolphin Software Stack

PXH820

PCIe Gen3 XMC NTB Adapter

- x4, x8 or x16 PCIe ports
- PIO and DMA RDMA
- Quad SFF-8644 cable port
- VITA 42.0 XMC 1.0
- Up to 9M copper, 100M fiber cables
- Transparent & Non Transparent bridging

PXH810

Gen3 PCI Express NTB Host Adapter

- Gen3 64 Gbps
- PCI Express iPass Connectors
- Supports Gen1,2,and 3 PCIe
- RDMA through PIO and DMA
- Clock isolation for CFC or SSC
- Low Profile Design
- Copper cables up to 5m
- Fiber-optic cables up to 100m
- Non-transparent bridging
- EEPROM configurable
- Link status LEDs
- Full Dolphin Software stack

MXH830

PCI Express Gen 3 x16 NTB Host Adapter

- One x16 PCIe edge port
- Four x4 PCIe Cable ports
- PCIe 3.0 or MiniSAS-HD cables
- 0.54 microsecond latency
- Low Profile Design
- Quad SFF-8644 Connectors
- Non Transparent Bridging
- 128 Gbit/s Performance
- Full Dolphin Software Stack

Gen2 Host Adapters

IXH610

PCI Express Gen2 Host Adapter

- x8 PCI Express port
- PIO and DMA RDMA
- iPass Connector
- Low Profile Design
- Up to 7m Copper Cables
- Transparent HOST bridging
- Non Transparent Bridging
- 40 Gbit/s Performance

IXH620

XMC PCI Express Gen2 Adapter

- x8 PCI Express port
- PIO and DMA RDMA
- iPass Connector
- VITA 42.0-2005,ANSI/VITA 42.3-2006
- Up to 7m Copper Cables
- Transparent bridging
- Non Transparent Bridging
- 40 Gbit/s Performance
