- Mobile Intel® 5 Series chipset: Ibex Peak-M PCH
- VGA interface
- Two on-board Gigabit Ethernet interfaces
- Four USB 2.0 ports
- Four PCI Express interfaces
- Two SATA interfaces
- One UART port
- Full PICMG 2.1, R2.0 Hot Swap specification compliance
- PICMG 2.9 System Management specification support
- PICMG 2.30 CompactPCI® PlusIO support
- Optional rear transition module

The Emerson Network Power CPCI7203 single-board computer (SBC) uses the Intel® Core™ i7 integrated dual-core processor in the 3U form factor for high performance applications in space-constrained applications. On-board memory includes up to 4GB DDR3 and 256KB non-volatile Ferroelectric Random Access Memory (FeRAM). FeRAM does not require batteries or periodic refreshes and offers many more read/write cycles and faster performance than flash memory, which benefits critical non-volatile data storage, data logs and dynamic program updates. Connectivity includes two Gigabit Ethernet ports, four USB 2.0 ports, one VGA, one serial port, two SATA ports, one universal PCI and four PCI Express (2.5Gbps) interfaces. The Trusted Platform Module (TPM) enhances data security and encryption capabilities. The CPCI7203 supports a range of operating system and software options including Wind River VxWorks, Fedora 11/Red Hat 6 Linux, VMware and Microsoft® Windows®.

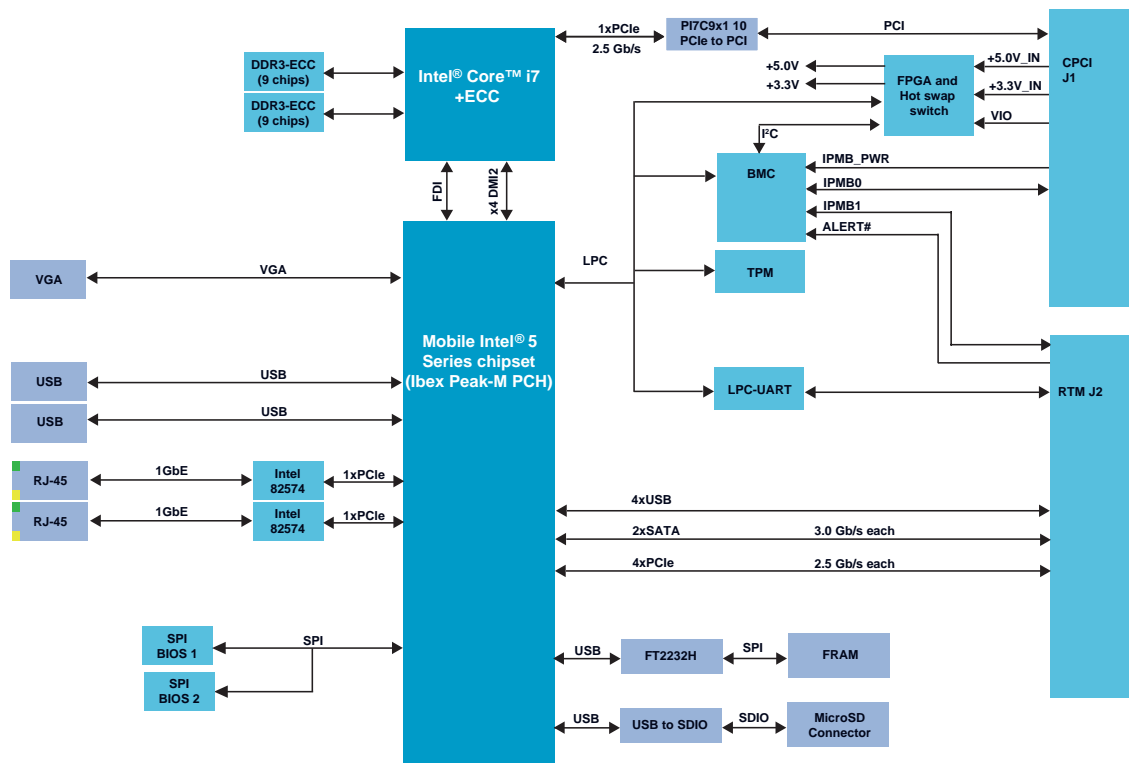

The CPCI7203 is a low-power, high-performance SBC that offers full hot swap compliance per PICMG® 2.1 and supports the PICMG 2.9 System Management and PICMG 2.30 CompactPCI PlusIO which supports the new serial buses on the J2 connector for data transfer rates of up to 5Gbit per second.

The Intelligent Platform Management Interface (IPMI) supports the PICMG 2.9 specification; the blade can host the Baseboard Management Controller (BMC) or act as a Peripheral Management controller (PM) node.

The CPCI7203 board is a superior choice for a wide range of industrial, medical and military/aerospace applications, such as railway control, semiconductor processing, robotics, image processing, vehicle communications and on-board flight information systems.
